No more
SINGLE USE PLASTIC

SUMMARY

- 1 CONTEXT
- 2 SUPPLIERS
- 3 PRICE AND SOLUTIONS
- 4 TO COMPLETE THE OFFER

1

CONTEXT

“If we don't break down the absurd linear economy of single-use plastic, the waste dumped into the ocean could triple to reach 600 million tonnes by 2040. Companies must urgently change.”

Ellen MacArthur Foundation

OUR INDUSTRY IS CONCERNED

1 plastic bottle in the nature takes more than **450 years** to biodegrade

IT IS NOW MANDATORY TO STOP SINGLE USE PLASTICS

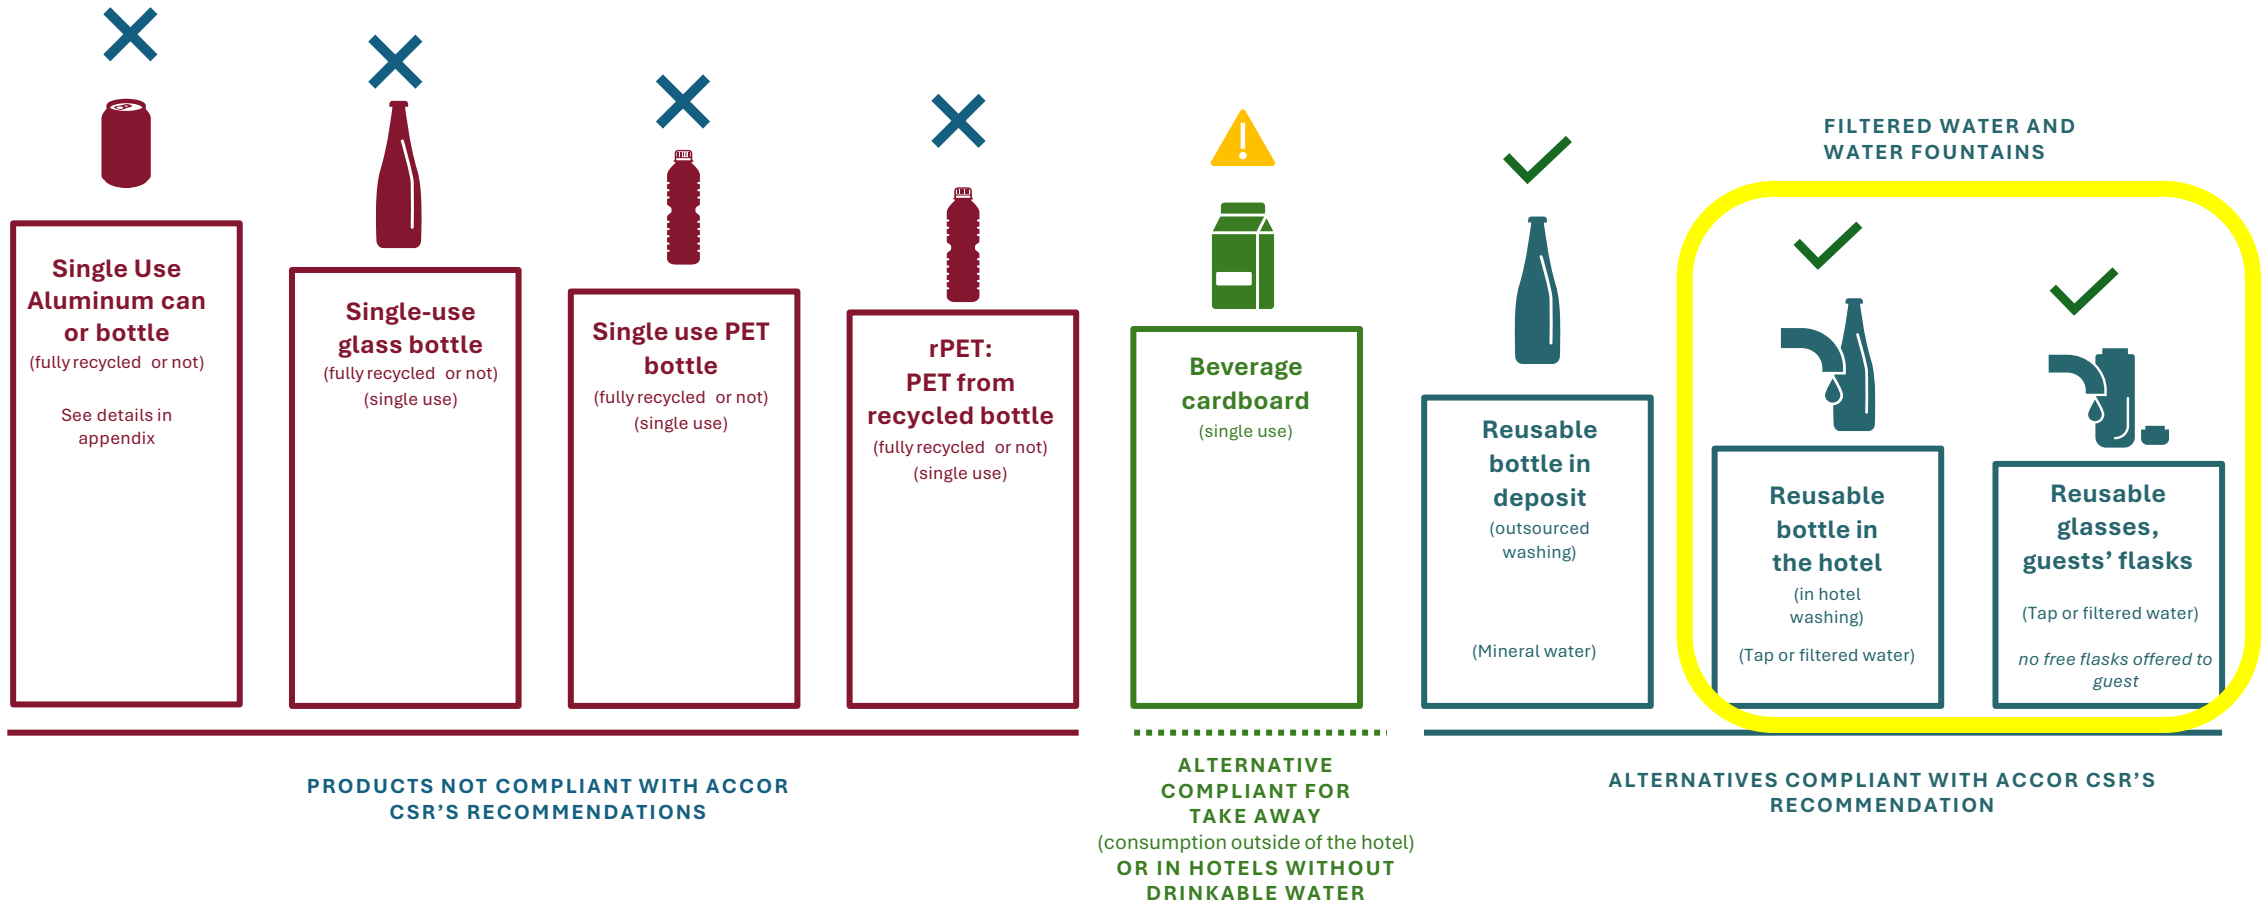

Plastic is a growing concern among scientists.

All over the world, anti-pollution legislations increase around plastics

There are strong expectations from guests, investors & partners

What are the compliant alternatives to water plastic bottles ?

WATER SOLUTIONS RANKING ACCORDING TO ENVIRONMENTAL FOOTPRINT

Source : Life cycle analysis done by Quantis for Accor based on data on several environmental indicators & regions, with a focus on carbon emissions
