1

CONTEXT

“If we don't break down the absurd linear economy of single-use plastic, the waste dumped into the ocean could triple to reach 600 million tonnes by 2040. Companies must urgently change.”

Ellen MacArthur Foundation

OUR INDUSTRY IS CONCERNED

1 plastic bottle in the nature takes more than **450 years** to biodegrade

IT IS NOW MANDATORY TO STOP SINGLE USE PLASTICS

Plastic is a **growing concern** among scientists.

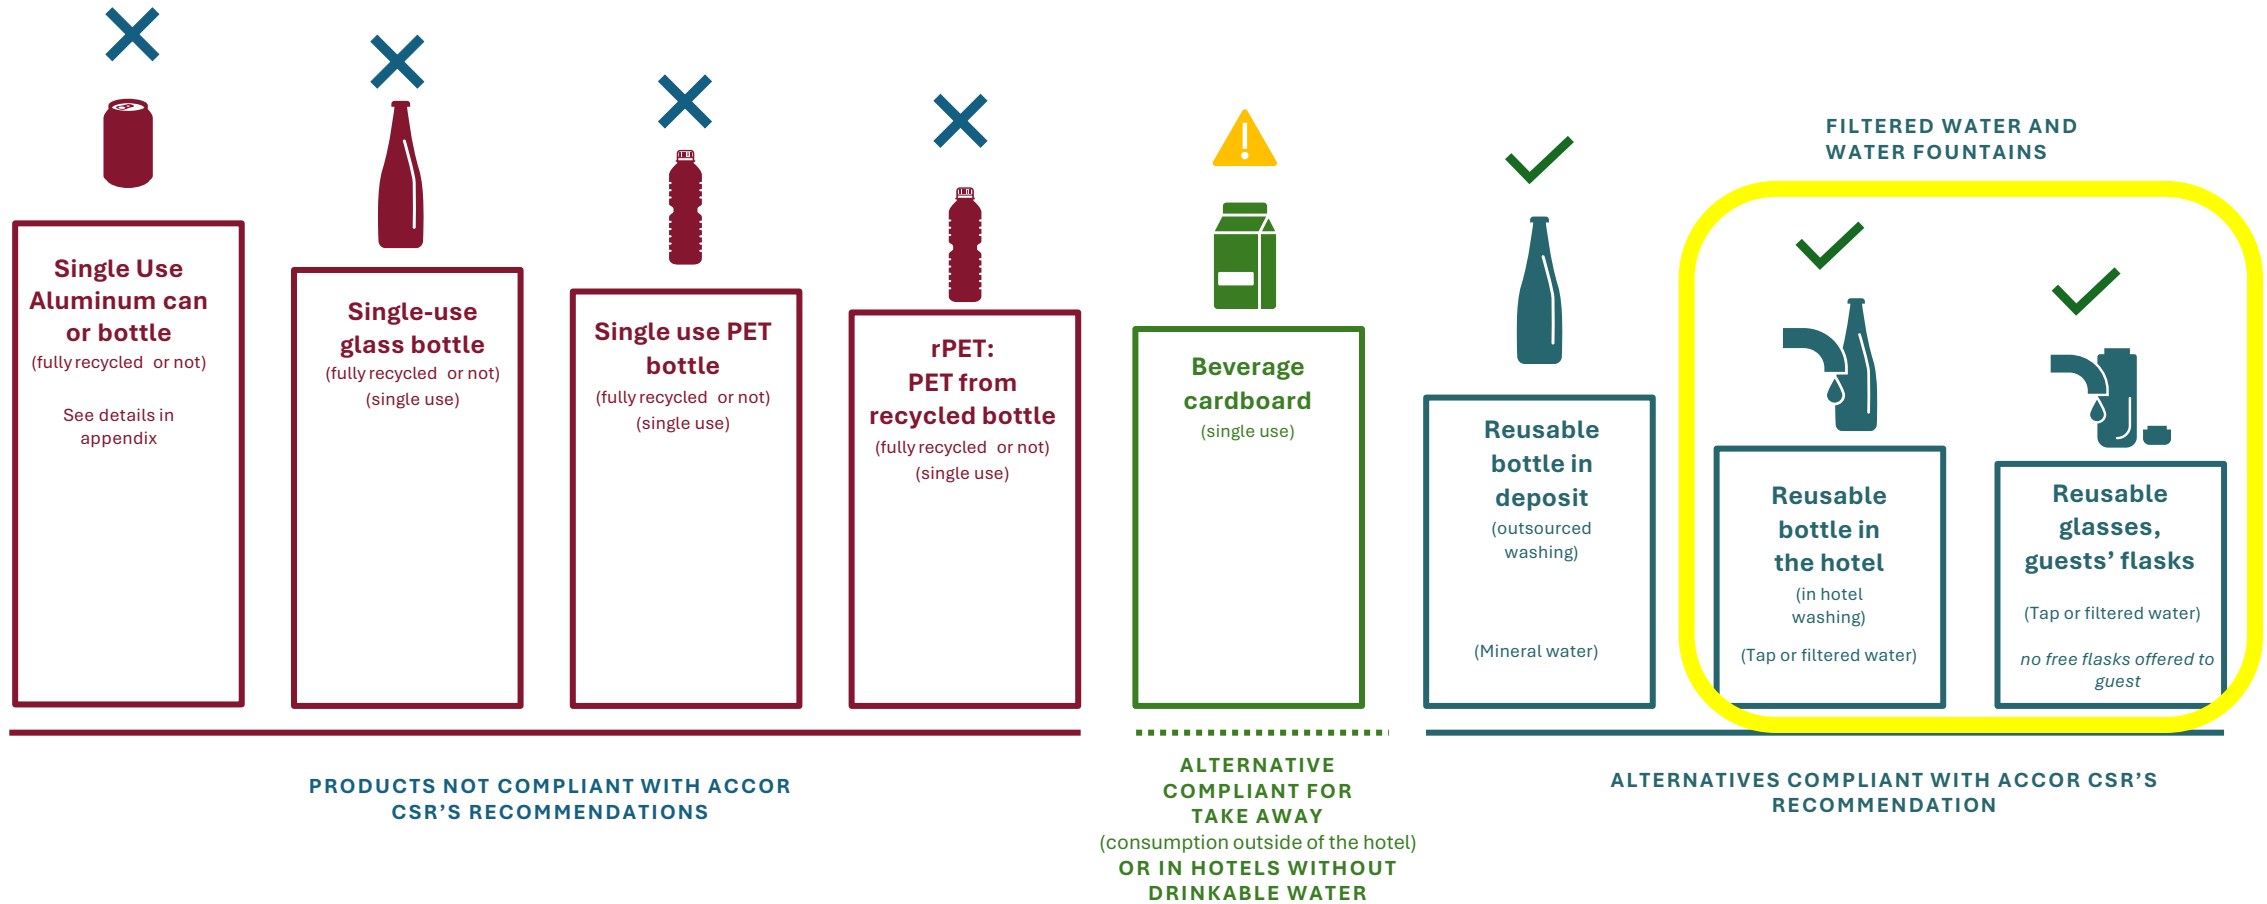

All over the world, **anti-pollution legislations** increase around plastics

There are **strong expectations** from guests, investors & partners

What are the compliant alternatives to water plastic bottles ?
